

### **Sewer Tap Fee Waiver Period**

Residential and commercial properties that are not currently on the Town sewer system can save \$1,500 until December 31<sup>st</sup>. To qualify, properties must:

1. Utilize a septic tank effluent pump (STEP) system;
2. Connect using a 1 ¼" PVC line;
3. Regularly maintain their septic tank; and,
4. Be responsible for running the 1 ¼" PVC line to any existing sewer trunk line.

Benefits of using a STEP system:

1. Easily added to an existing septic tank system;
2. Eliminates need for a drain field on the property;
3. Does not need gravity flow to connect to sewer; and,
4. Helps protect the environment.

Contact Town Hall at 770.719.7666 for more information.
