### INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Members of Town Council Town of Brooks, Georgia

# Report on the Audit of the Financial Statements

# **Opinion**

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of the Town of Brooks, Georgia, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Town of Brooks, Georgia's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and each major fund of the Town of Brooks, Georgia, as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

# **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Brooks, Georgia and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Brooks, Georgia's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

# Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town of Brooks, Georgia's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Brooks, Georgia's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-11 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Brooks, Georgia's basic financial statements. The accompanying individual budgetary schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion the individual budgetary schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

# Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 30, 2025, on our consideration of the Town of Brooks, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Brooks, Georgia's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Town of Brooks, Georgia's internal control over financial reporting and compliance.

James J. Whitaker, F. C.

Snellville, Georgia January 30,2025

# TOWN OF BROOKS MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Town of Brooks, we offer readers of the Town of Brooks's financial statements this narrative overview and analysis of the financial activities of the Town of Brooks for the fiscal year ended 2024. We encourage readers to consider the information presented here in conjunction with their review of the financial statements.

# Financial Highlights

- The assets of the Town of Brooks exceeded its liabilities and deferred inflows at June 30, 2024 by \$2,845,904. Of this amount, unrestricted net position of \$672,677 may be used to meet the government's ongoing obligations to citizens and creditors.
- For the year, net position increased by a total of \$252,132. Governmental activities increased the net position for the year by \$234,861 while business-type activities increased the net position by \$17,271. The most significant factor that led to the increase in business-type activities net position was the transfer to the Stormwater Reserve Fund by the General Fund in the amount of \$12,000 for the year.
- For the fiscal year ended June 30, 2024, the Town of Brooks' governmental funds reported combined ending fund balances of \$1,132,266, an increase of \$295,019 in comparison with the prior year. Of this amount \$483,583 is unassigned and available for spending and \$41,315 is restricted for road improvements and \$607,368 is restricted for capital project voted on by Citizens under the SPLOST referendum. Total governmental fund balances went from a beginning balance of \$837,247 as of July 1, 2023 to \$1,132,266 as of June 30, 2024. The factors that contributed to the increase for fiscal year ended June 30, 2024 were: 1)LMIG revenues were received but were not used as of June 30, 2024; and 2) the SPLOST Funds' spending of only \$2,604 of the \$183,752 it brought in from SPLOST proceeds.
- As of June 30, 2024, unassigned fund balance for the general fund was \$483,583 or 116.0 percent of total General Fund expenditures.
- The Town of Brooks had no long-term debt obligations or transactions during the year ended June 30, 2024. However, the Town has enter into various subscription-based information technology arrangements (SBITAs) totaling \$28,444, which resulted in SBITA liabilities to be payable over a three year period.

### Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Town of Brooks' basic financial statements. The Town of Brooks' basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the Town of Brooks' finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Town's assets and liabilities and deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town of Brooks include general government, highways and streets, cemetery, parks and recreation, library, and planning and zoning. The business-type activities of the Town are Water, Sewer, Solid Waste and Stormwater Management.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town of Brooks can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between the two.

The Town maintains four major governmental funds. The Town's major governmental funds are the General Fund, the American Rescue Plan Act Special Revenue Fund; and the two SPLOST Capital Project Funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for all major funds.

The Town of Brooks adopts an annual budget for all of its governmental funds. Budgetary comparison statements have been provided for the General Fund and the ARPA Fund to demonstrate compliance with each fiscal year budget. A project-length budget is presented for the SPLOST Capital Projects Funds.

**Proprietary funds.** Enterprise funds (a component of proprietary funds) are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town uses enterprise funds to account for its Water, Sewer, Solid Waste Management and Stormwater activities. All of the Town's enterprise funds are considered by the Town to be major funds.

Proprietary funds provide the same type of information as government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for each of the Town's major funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

# Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. At June 30, 2024, the Town's assets exceeded liabilities and deferred inflows by \$2,845,904. The Town's net position reflects its investment in capital assets of \$1,524,544 (53.6 percent). Capital assets are used to provide services to citizens and they are not available for future spending. Of the total net position, \$672,677 (23.6 percent) is unrestricted and may be used to meet the government's ongoing obligations to citizens and creditors. \$648,683 (22.8 percent) of the net position is restricted for road improvement and other capital projects. A summary of the Town's net position for a two year period is presented on page 6.

# Town of Brooks's Net Position June 30, 2024 and 2023

	Governmen	ital Activities	Business-ty	pe Activities	Total

Net position -								
Invested in capital assets	1,415,538	1,469,382	109,006	90,813	1,524,544	1,560,195		
Restricted	648,683	443,093	-	:=	648,683	443,093		
Unrestricted	483,048	399,933	189,629	190,551	672,677	590,484		
Total net position	\$ 2,547,269	\$ 2,312,408	\$ 298,635	\$ 281,364	\$ 2,845,904	\$ 2,593,772		

Governmental activities. For the year ended June 30, 2024, governmental activities increased the Town of Brooks' net position by \$234,861. Key elements of this increase are as follows:

- Significant changes to revenues include 1) a decrease of approximately \$46,000 in ARPA Grant activities which revenues are recognized when related expenditures are incurred and 2) an increase in SPLOST and LOST of approximately \$16,400, which is due in part to an increase in economic activity.
- Expenses for the year remained consistent with the previous year.

Business-type activities. Business-type activities increased the Town's net position for the year by \$17,271. Key elements of this increase are as follows:

• For the fiscal year ended June 30, 2024 the Water Fund had a positive change in net position of \$2,526 while the Solid Waste Fund had a positive change of \$2,598 and the Stormwater Fund had a positive change of \$12,147. In July 2010 the Town entered into a contract with Fayette County for Fayette County to assume operational responsibilities for the Town's water system. Although the County will manage the Town of Brooks Water System, ownership of the system remains with the Town. Therefore, the only revenues recognized by the Town in the Water Fund consisted of charges from the Town's septic tank system, which provides sewer services to fewer than 13 customers. The Town continues to transfer \$12,000 from the General Fund to the Stormwater Fund to build up reserves for future stormwater projects.

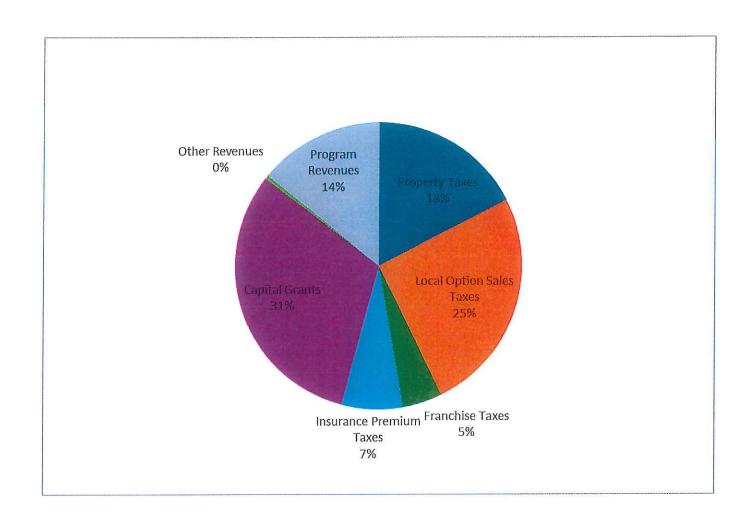

A summary of the Town's change in net position for the two-year period is provided on page 8.

A pie chart showing the percentage of revenues for each governmental revenue source is provided on page 9.

# TOWN OF BROOKS, GEORGIA GOVERNMENTAL REVENUES PIE CHART FOR THE YEAR ENDED JUNE 30, 2024

# Financial Analysis of the Government's Funds

As noted earlier, the Town of Brooks used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The purpose of the Town's governmental fund financial statements is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At June 30, 2024 the Town's governmental funds reported combined ending fund balances of \$1,132,266, an increase of \$295,019 in comparison to the prior year. Of this amount, \$483,583 (42.7 percent) is unassigned fund balance, which is available for spending at the government's discretion. The remainder of fund balance is restricted for road improvement and other capital projects in the amount of \$648,683.

The General Fund is the Town's chief operating fund. At the end of the current fiscal year, unassigned fund balance of the general fund was \$483,583. As a measure of the general fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance represents 116.0 percent of the total general fund expenditures.

The General Fund's fund balance for the year went from a fund balance as of July 1, 2023 in the amount of \$411,292 to \$524,898 as of June 30, 2024. The net increase of \$113,606 was due to an increase in sales tax revenues and proper budget management.

The SPLOST Funds' report transactions associated with the 2017 Special Purpose Local Option Sales Tax Referendum approved by the voters of Fayette County. For the fiscal year ended June 30, 2024, the Town expended \$2,604 on engineering for street improvements and received \$183,752 in SPLOST revenues.

**Proprietary funds.** The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the proprietary funds, as of June 30, 2024, amounted to \$189,629, of which the Water Fund had \$100,744, the Solid Waste Management Fund had \$53,456 and the Stormwater Reserve Fund had \$35,429.

# General Fund Budgetary Highlights

During fiscal year ended June 30, 2024, the actual expenditures of \$416,573 did not exceed the final approved budget amount of \$434,610. The budget was amended to account for the increase in legal fees of \$14,021, engineering fees of \$3,343, insurance expense of \$2,391 and various other expenses.

# Capital Asset and Debt Administration

Capital assets. The Town's investment in capital assets for its governmental and business-type activities at June 30, 2024 amounts to \$1,522,485 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, automobiles and equipment, sidewalks, bridges, and roads.

Major capital asset events during the year included the following:

- \$19,195 for stormwater and road improvements in the downtown area
- \$7,600 for a new heating and air conditioning unit in the library

Additional information on the Town's capital assets can be found in note 9 to the financial statements.

**Long-term debt.** At June 30, 2024, the Town had \$-0- in outstanding debt. During the f/y/e 6/30/2024 the Town had no long-term debt transactions. However, as mentioned above, the Town did enter into subscription-based information technology agreements (SBITAs) during f/y 2023 which required the related remaining liability of \$19,637 to be paid over a two year period. The balance of the payable at June 30, 2024 amounted to \$13,406. Additional information relating to the SBITAs can be found in note 8 to the financial statements.

# Status of the Town of Brooks's Economy

- The unemployment rate in the Town of Brooks is in line with the State and Nation.
- Inflationary trends in the region compare favorably to national indices.
- The occupancy rate of the Town's downtown areas has remained virtually unchanged.
- Sales tax receipts continue to be strong as compared to prior years.
- In October 2022, the citizens of Fayette County passed a referendum to approve a new SPLOST program. Revenues recognized for the fiscal year ended June 30, 2024 amounted to \$183,752 which is approximately \$5,300 over the amount received in f/y 2023.
- The City received the final distribution of \$104,375 in ARPA Grant proceeds during f/y 2023. The proceeds from the grant are expected to help finance significant infrastructure projects. The amount of ARPA funds remaining as of June 30, 2024, is \$99,952.

# **Requests for Information**

This financial report is designed to provide a general overview of the Town of Brooks' finances, comply with finance-related laws and regulations, and demonstrate the Town's commitment to public accountability. Questions concerning this report or requests for additional information can be obtained by contacting the Town at (770) 719-7666 or at the following address:

Town of Brooks Finance Department P.O. Box 96 Brooks, GA 30205 This page intentionally left blank.

# TOWN OF BROOKS, GEORGIA RECONCILIATION OF THE STATEMENTS OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENTS OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2024

Net change in fund balances total governmental funds	\$ 295,019
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Capital outlay, including IT subscriptions Depreciation and amortization expense	15,059 (75,422)
The net effect of other miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net position. This is the amount of net book value of assets disposed of during the current period.	
Net book value of assets disposed of through sale or abandonmet	(5,834)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures	
Change in accrued interest	(192)
Proceeds from long-term debt obligations provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	
Proceeds from debt issues Repayment of principal	 6,231
Change in net position of governmental activities.	\$ 234,861

# TOWN OF BROOKS, GEORGIA NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

# A. Basis of Presentation

The Town's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the Town are discussed below.

# B. The Reporting Entity

The Town of Brooks, Georgia (the Town) was established in 1910 and is located in Fayette County about 40 miles south of Atlanta. The Town provides a full range of services to approximately 560 residents. These services are provided in whole or in part by the Town. These services include water and sewer, sanitation, public improvements, planning and zoning, parks and recreation, library, cemetery, and general administrative services.

Governmental Accounting Standards Board Standards defines the reporting entity for determining which potential component units should be included in a primary government's financial statements. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. In addition, a component unit can be another organization for which the nature and significance of its relationship with a primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Using the above criteria, the Town does not have any component units.

# C. Basic Financial Statements—Government-Wide Statements

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type.

The government-wide Statement of Net Position presents the financial condition of the governmental and business-type activities of the Town at year-end. The statement is presented on a consolidated basis and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net position is reported in three parts—investment in capital assets; restricted net position; and unrestricted net position. The Town first utilizes restricted resources to finance qualifying activities.

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued):

# C. Basic Financial Statements—Government-Wide Statements - Continued

The government-wide Statements of Activities present a comparison between direct expenses and program revenues for each program or function of the Town's governmental activities and for business-type activities of the Town. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. The Town does not allocate indirect cost. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Town, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity self-financing or draws from the general revenues of the Town.

The net costs (by function) are normally covered by general revenue (property, sales or use taxes, intergovernmental revenues, interest income, etc.).

This government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net position resulting from the current year's activities.

# D. Basic Financial Statements-Fund Financial Statements

The financial transactions of the Town are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues, and expenditures/expenses. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. Fund financial statements are designed to present financial information of the Town at this more-detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds, if any, are aggregated and presented in a single column.

Governmental Fund Types — Governmental funds are those through which most governmental functions of the Town are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Town's major governmental funds:

General Fund – The General Fund is the primary operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in other specific funds.

The SPLOST Capital Projects Funds – These funds are used by the Town to account for acquisition and construction of major capital facilities that were approved by the voters of Fayette County, Georgia through the Special Purpose Local Option Sales Tax referendum. The amounts collected in these funds are restricted to be spent on capital projects throughout the Town.

American Rescue Plan Act (ARPA) Special Revenue Fund – This fund is used to account for the monies received and the related expenditures under the American Rescue Plan Act. Recipients may use award funds to cover eligible costs incurred during the period that begins March 3, 2021 and ends December 31, 2024.

(See Independent Auditor's Report)

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued):

# D. Basic Financial Statements-Fund Financial Statements - Continued

**Proprietary Fund Type** – Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. The Town's proprietary funds are classified as enterprise funds. Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following are the Town's major enterprise funds:

The Water Enterprise Fund – This fund is used to account for activities connected with the development, operation and maintenance of water in the Town of Brooks and parts of Fayette County.

Solid Waste Management Enterprise Fund - The Solid Waste Management Enterprise Fund is used to account for the revenues generated from the charges for sanitation and recycling services provided to the residential users of the Town.

Stormwater Reserve Fund- This fund was created during fiscal year ended June 30, 2014 to account for resources obtained to provide drainage improvements and operating activities.

# E. Measurement Focus

Government-wide Financial Statements – The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the Town are included on the statements of net position.

Fund Financial Statements – All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of government-wide financial statements are prepared. Therefore, governmental fund financial statements include reconciliations with brief explanations to better identify the relationship between the government-wide and the statements for governmental funds.

Like the government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of fund net position. The statement of changes in revenues, expenses, and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the Town finances and meets the cash flow needs of its proprietary activities.

On the proprietary funds financial statements, operating revenues are those that flow directly from the operations of the activity, i.e. charges to customers or users who purchase or use the goods or services of that activity. Operating expenses are those that are incurred to provide the goods or services. Non-operating revenues and expenses are items such as investment income and interest expense that are not a result of the direct operations of the activity.

(See Independent Auditor's Report)

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued):

# F. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

# 1. Accrual

Government-wide financial statements are presented on the accrual basis of accounting; proprietary funds also use the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

### 2. Modified Accrual:

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

Those revenues susceptible to accrual are taxes, state and federal grants, interest revenue, and charges for services. Major revenues that are determined not to be susceptible to accrual because they are either not available soon enough to pay liabilities of the current period or are not objectively measurable include licenses, penalties, and miscellaneous revenues which are recorded as revenues when received in cash. Those revenues that are measurable but are not collected within 60 days after year end are recorded as deferred revenues.

# G. Cash and Investments

Cash includes amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the Town. For purposes of the statement of cash flows, the Enterprise Funds consider all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

The Town's investments consist of certificates of deposit with a maturity date greater than three months from the date of purchase. For reporting purposes, all investments are recorded at fair value.

In applying GASB Statement No. 31, the Town utilized the following methods and assumptions as of June 30, 2024:

- 1. Fair value is based on quoted market prices as of the valuation date;
- 2. The investment portfolio did not hold investments in any of the following: a) items required to be reported at amortized costs; b) items subject to involuntary participation in an external pool; and, c) items associated with a fund other than the fund to which the income is assigned.

The Town's policy is to hold investments until maturity.

(See Independent Auditor's Report)

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued):

### H. Inventory

Inventory is valued at the lower of cost (first-in, first-out) or market. Inventory, if any, in the General Fund consists of expendable supplies held for consumption. The cost is recorded as expenditure at the time individual inventory items are used, rather than in the period purchased. Reported inventories are equally offset by a fund balance reserve, which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets. Inventories of the Water and Sewer Funds, if any, consist of various repair parts and supplies. There were no such inventories at June 30, 2024.

# I. Prepaid Expenses

Payments made to vendors for service that will benefit periods beyond June 30, 2024 are recorded as prepaid items and are expensed during the period benefited. There were no such prepayments recorded at June 30, 2024.

# J. Capital Assets

General capital assets are capital assets which are associated with and generally arise from governmental activities. They generally result from expenditures in governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized during fiscal year ended June 30, 2024. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings and improvements	20-50 years
Machinery and equipment	5-10 years
Water and sewer systems	40 years
Roads	50 years
Land improvements	10 years

The City implemented the \$5,000 threshold for assets purchased beginning July 1, 2015. Prior to July 1, 2015, the capitalization threshold was \$500.

The Town only reports infrastructure assets purchased subsequent to December 31, 2003.

# K. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. All payables, accrued liabilities, and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as liabilities in the fund financial statements only to the extent that they are due for payment during the current year. Long-term loans are recognized as a liability on the governmental fund financial statements when due.

(See Independent Auditor's Report).

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued):

# L. Revenues

Substantially all governmental fund revenues are accrued. When applicable, property taxes are billed and collected within the same period in which the taxes are levied. In applying GASBS No. 33 to grant revenues, the provider recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before the eligibility requirements are met are reported as advances by the provider and deferred revenue by the recipient.

### M. Expenditures

Expenditures are recognized when the related fund liability is incurred. Inventory costs, when presented, are reported in the period when inventory items are used, rather than in the period purchased.

# N. Compensated Absences

The Town accrues accumulated unpaid vacation and sick leave benefits, which will be paid to employees upon separation from service, when earned (or estimated to be earned) by the employee. The noncurrent portion (the amount estimated to be used in subsequent fiscal years) for governmental funds is maintained separately and represents a reconciling item between the fund and government-wide presentations. In accordance with the provisions of Statement No. 16 of the Governmental Accounting Standards Board, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. There were no accruals for compensated absences as of June 30, 2024.

# O. Interfund Activity

Interfund activity is reported as either loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental funds are netted as part of the reconciliation to the government-wide financial statements.

# P. Encumbrances

Encumbrances accounting, under which purchase orders, contracts, and other commitments for the expenditures of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the Town.

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued):

# Q. Fund Balance - Governmental Funds

Fund balances of the governmental funds are classified as follows:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions, charter requirements or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – amounts that can be used only for specific purposes determined by a formal action of Town of Brooks' Council. Brooks' Council is the highest level of decision making authority for the Town. Commitments may be established, modified, or rescinded only through ordinances approved by Town Council prior to end of the fiscal year. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken to remove or revise the limitation..

Assigned — amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Only the Town Council may assign amounts for specific purposes through passage of a resolution. Unlike commitments, assignments generally only exist temporarily and do not normally have to have an additional action taken for their removal..

Unassigned – all other spendable amounts.

As of June 30, 2024, fund balances were composed of the following:

General Fund		
Restricted for road improvements	\$	41,315
Unassigned		483,583
ARPA Fund -		
Capital projects		22
SPLOST Funds -		
Capital projects	-	607,346
Total	\$ 1	,132,266

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Town considers restricted funds to have been spent first. When an expenditures is incurred for which committed, assigned, or unassigned fund balances are available, the Town considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Town Council has provided otherwise in its commitment or assignment actions.

(See Independent Auditor's Report).

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued):

#### R. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflow of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense / expenditures) until then. The Town has no items that qualify for reporting in this category as of June 30, 2024.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. As of June 30, 2024 the Town had one significant item that qualify for reporting in this category. The item, deferred lease inflows, is reported in both the government-wide statement of net position and the governmental funds balance sheet.

#### S. Net Position

Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. Net position invested in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through constitutional provisions or enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The Town's government-wide statements of net position reported the following amount of restricted net position as of June 30, 2024:

Restricted by Grant Agreement - LMIG	\$ 41,315
Restricted by Grant Agreement - ARPA	\$ 22
Restricted by enabling legislation - SPLOST	\$ 607,346

The Town applies restricted resources first when an expense is incurred for which both restricted and unrestricted net position are available.

#### T. Contributions of Capital

Contributions of capital in the proprietary fund financial statements arise from outside contributions of capital assets, tap-on fees to the extent they exceed the cost of connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

#### U. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### 1. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued):</u>

#### V. Budgets and Budgetary Accounting

The Town Council adopts an annual budget for all of the Town's funds. Public hearings are conducted to obtain taxpayer comments. The operating budget includes proposed expenditures and the means of financing them. The budget is legally enacted by the passage of a resolution. Any revisions that alter the total expenditures of any department must be approved by Town Council.

Governmental fund type budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) at the legal level of budgetary control which is the department level. Expenditures may not exceed the appropriations within a fund. Budgets, as reported in the financial statements, are as originally approved or last amended. All annual appropriations lapse at year end.

#### 2. CASH AND INVESTMENTS

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Town follows the State's requirement for all deposits in excess of Federal Deposit Insurance be collateralized by securities equal to at least 110% of the excess deposits. As of June 30, 2024, \$1,122,301 of the Town's bank balances of \$1,372,301 were exposed to custodial credit risk as follows:

Total bank deposits	\$ 1,372	,301
Uninsured and uncollateralized	\$	_
Collateralized with securities held by pledging		
financial institution or its agent	1,122	,301
Total	\$ 1,122	,301

#### Investments

Investments - Statutes authorize the Town to invest in obligations of the United States and of its agencies and instrumentalities, bonds of the State of Georgia and its agencies, instrumentalities and political subdivisions, and certificates of deposit of national or state banks that are fully insured or collateralized by United States obligations.

Investments consisted of certificates of deposits and are included in the above-mentioned bank balances. Investments are stated at cost plus accrued interest, which approximates fair value.

#### 3. PROPERTY TAX

Property taxes are levied in October and are due 60 days after the receipt of the tax notice. Property taxes attach as an enforceable lien on the property as of January 1. A Local Option Sales Tax (LOST) is in force. Proceeds from the LOST are remitted to the Town on a monthly basis and are utilized to give property tax owners tax relief. The Town has obtained the service of Fayette County to bill and collect the Town's property taxes. The County remits monies collected to the Town on a semi-monthly basis.

#### 4. INTERGOVERNMENTAL REVENUES AND RECEIVABLES

Intergovernmental revenues and receivables reported in the fund financial statements for the years ended June 30, 2024 consisted of the following:

	Receivable			Revenue
General Fund -				
LMIG	\$	27	\$	41,315
2017 SPLOST Fund -				
SPLOST - Fayette County				787
2023 SPLOST Fund -				
SPLOST - Fayette County	8 <u>7</u>	31,884		182,965
Revenue	\$	31,884	\$	225,067

#### 5. RECEIVABLES

Receivables as of June 30, 2024, including the applicable allowances for uncollectible accounts, were as follows:

Governmental Funds -		
General Fund -		
Taxes	\$	26,591
Lease		307,322
SPLOST-		
Intergovernmental	-	31,884
Total Governmental Funds	\$	365,797
Proprietary Funds -		
Sanitation Fund -	Φ.	222
Accounts	\$	323
Water Fund -		127 227 1827
Accounts		196
Total		519
Allowance for doubtful accounts - Sanitation		<u> </u>
Total Proprietary Funds	\$	519

#### 6. <u>INTER-FUND TRANSACTIONS</u>

There were no individual fund interfund receivable or payable balances at June 30, 2024.

Individual fund interfund transfers for the year ended June 30, 2024 were as follows:

Transferred from the General Fund to the Stormwater Fund

\$ 12,000

Total

\$ 12,000

The General Fund has been transferring \$12,000 on an annual basis to the Stormwater Fund to help build a reserve in the Stormwater Fund for future capital needs.

#### 7. LONG-TERM OBLIGATIONS

The following is a summary of changes in long-term obligations reported in the government-wide financial statements for the year ended June 30, 2024:

	eginning Balance	Add	ditions	D	eletions	]	Balance	100	Current Amount
Governmental Activities Subscriptions payable	\$ 19,637	\$	12	\$	(6,231)	\$	13,406	\$	13,406
Total Governmental Activity  Long-Term Obligations	\$ 19,637	\$	n=	\$	(6,231)	\$	13,406	\$	13,406

The General Fund is the responsible fund that pays the Town's long-term obligations.

#### 8. SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS

In July 2022, the Town implemented a new accounting standard GASB Statement No. 96 "Subscription-Based Information Technology Arrangements". The new accounting standard requires the reporting of a right-to-use subscription asset and a corresponding subscription liability for agreements that qualify under the new standard.

The Town has entered into subscription-based information technology arrangements (SBITAs) involving:

- Various desktop and server software subscriptions
- Cloud backup services software
- · Payroll and human resources services software

The total costs of the Town's subscription assets are recorded as \$28,444, less accumulated amortization of \$12,979. Total amortization expense for the year ended June 30, 2024 was \$10,296.

#### 8. SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS

The future subscription payments under SBITA agreements are as follow:

Fiscal	Subscriptions							
Year	P	rincipal	I	nterest	Total			
2025	\$	13,406	\$	1,197	\$	14,603		

#### 9. PROPERTY, PLANT AND EQUIPMENT

Capital asset activity for the years ended June 30, 2024 was as follows:

	Balance Beginning	Additions	Deletions	Balance Ending
Governmental Activities:	Degillining	<u> 7 kddrtiOiis</u>	Deletions	Litering
Capital assets, not being depreciated:				
Land	\$ 209,985	\$ -	\$ -	\$ 209,985

Capital assets being depreciated: System improvements	2	237,586	V	19,195	-3:		_	256,781
Total capital assets being depreciated		237,586		19,195	ν	<u> </u>	3 <b>.</b>	256,781
Less accumulated depreciation for: System improvements	¥-	146,773		2,705		(1,703)		147,775
Total accumulated depreciation	-	146,773	New Control	2,705		(1,703)		147,775
Total capital assets being depreciated, net	-	90,813		16,490	o <del>ž.</del>	1,703	-	109,006
Governmental capital assets, net	\$	90,813	\$	16,490	\$	1,703	\$	109,006

Depreciation expense was charged to the Water Fund for \$1,138 and the Stormwater Fund for \$1,567.

#### 10. JOINT VENTURES

#### Atlanta Regional Commission

Under Georgia law, the Town, in conjunction with other cities and counties in the Metro Atlanta area, is a member of the Atlanta Regional Commission (hereafter, "ARC")... Membership in this organization is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34, which provides for the organizational structure of the Commission in Georgia. The ARC Board membership includes the chief elected official of each county, one representative for all the cities in a member county and 15 citizen representatives. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of the ARC. Management believes that ARC is accumulating sufficient financial resources to meet its financial obligations, therefore, no provision has been made in the accompanying financial statements for any debts or obligations that might inure to the Town of Brooks as a result of ARC's inability or refusal to meet its obligations. Separate financial statements for ARC may be obtained from:

Atlanta Regional Commission 3715 Northside Parkway Building 200, Suite 300 Atlanta, Georgia 30327

#### 11. CONTINGENCIES

There were no lawsuits (whether asserted, pending, or threatened) or complaints as of June 30, 2024 that management believes will have a material effect on the financial condition of the Town.

#### 12. EMPLOYEE BENEFIT PENSION PLANS

#### Deferred Compensation Plan-

In May 2009 the Town created a Deferred Compensation Plan under IRS code section 457(b). The Plan is administered by the Georgia Municipal Association. Under the terms of the deferred compensation plan, any employee can voluntarily defer up to \$18,000 of gross compensation per year. Each participant selects one of three options to administer the investment of the deferred funds. All administration costs of the plan are deducted from the participants' accounts. The deferred amounts may be distributed to the employee upon retirement or other termination of employment, disability, death, or financial hardship. Total amounts deferred by employees for the year ended June 30, 2024 was \$1,200.

#### 13. RISK MANAGEMENT

The Town of Brooks is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The Town is a member of Georgia Interlocal Risk Management Agency. This membership allows the Town to share liability, crime, motor vehicle, and property damage risks.

Coverages are as follows:

Coverage Description – Property: Buildings and contents – (Blanket)	\$2,547,615
Automobile physical damage	Per Application on file with GIRMA
Coverage Description – Casualty:	
Comprehensive general liability	\$1,000,000
Automobile liability	\$ 750,000
Errors and omissions (Public Officials)	\$ 600,000
Employee benefits liability	\$ 600,000
Coverage Description – Crime:	
Blanket bond – employees required to be bonded	\$ 500,000
Blanket bond – all other employees	\$ 500,000
Depositors forgery	\$ 500,000
Money and securities – loss inside and outside premises	\$ 500,000
Deductible:	
Most coverages are subject to a per occurrence deductible of	\$1,000
Cyber coverage is subject to a per occurrence deductible of	\$10,000

Coverage Exceptions:

Coverage Subject to a Retroactive Date:

Chapter 85 Title 36 of the Official Code of Georgia Annotated authorizes Georgia municipalities to form interlocal risk management agencies. The Georgia Interlocal Risk Management Agency (GIRMA) is a municipal interlocal risk management agency to function as an unincorporated non-profit instrumentality of its member municipalities — GIRMA establishes and administers one or more group self-insurance funds and a risk management service to prevent or lessen the incidence and severity of casualty and property losses occurring in the operation of municipal government.

During the year ended June 30, 2024, the Town paid no claims. The Town has not compiled a record of the claims paid up to the \$1,000 deductible for the prior years. The Town is not aware of any claims which the Town is liable for (up to the \$1,000) which were outstanding and unpaid at June 30, 2024. No provisions have been made in the accompanying financial statements for the years ended June 30, 2024 for any estimate of potential unpaid claims.

The Town of Brooks does provide Workers Compensation Insurance over its employees.

#### 14. SPECIAL ITEM - BROOKS AREA RECREATION, INC.

As of July 1, 2009 the Town disassociated itself from the operations of the Brooks Area Recreational Complex. The Town currently rents the facilities to the Brooks Area Recreation, Inc., (BARI) a corporation that has applied for recognition as a non-profit organization under the Internal Revenue Service code section 501 ( c ) (3). Although the Town continues to provide financial assistance to BARI, the Town has no direct or indirect responsibility for the park's day-to-day operations.

#### 15. CONTRACT FOR OPERATING THE TOWN'S WATER SYSTEM

In July 2010 the Town entered into a contract with Fayette County (hereafter the "County") for Fayette County Water System to assume operational responsibility for the Water System for the Town of Brooks, Georgia. Although the County has managed the Town of Brooks Water System since the date of the contract, ownership of the system remains with the Town.

The terms of the agreement include Fayette County being assigned the managerial, operations and financial responsibility of operating, maintaining and expanding the existing water system for a period of 49 years unless terminated or extended by the parties. In negotiating this agreement, the Mayor and Council believed that the Town will benefit from the County's upgrading the existing system and ultimately providing residents with improved service.

Under the terms of the agreement Fayette County shall have the sole responsibility and authority to establish and set rates, fees, charges, and penalties necessary for the operation, maintenance, upgrade, improvement, and expansion of the water system. Subject to the provisions hereof, it is intended that the expansion, upgrade, improvement, operation, and maintenance of the water system shall be on a self-sustaining basis. All revenues of Fayette County water system shall be used exclusively by the water fund for direct and indirect costs of the water operations.

#### 16. OTHER REQUIRED INDIVIDUAL FUND DISCLOSURES

Generally accepted accounting principles require disclosures, as a part of the combined statements - overview, of certain information concerning individual funds including-

- A. Deficit fund balances or net asset balances of individual funds As of June 30, 2024, none of the Town's Funds had a deficit net fund balance.
- B. Excess expenditures over budget in individual funds: The Town had no fund that incurred material excesses (if over 5 percent and greater than \$5,000) of expenditures over appropriations at the department level for the year ended June 30, 2024.

#### 17. **LEASING ACTIVITIES**

In July 2021, the Town implemented a new accounting standard GASB Statement No. 87 "Leases". The new standard establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under the Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

A lease is defined as a contract that conveys control of the right to use another entity's nonfinancial asset (the underlying asset) as specified in the contract for a period of time (greater than one year) in exchange or exchange-like transaction. Any contract that meets this definition should be accounted for under the lease guidance, unless specifically excluded in the GASB Statement.

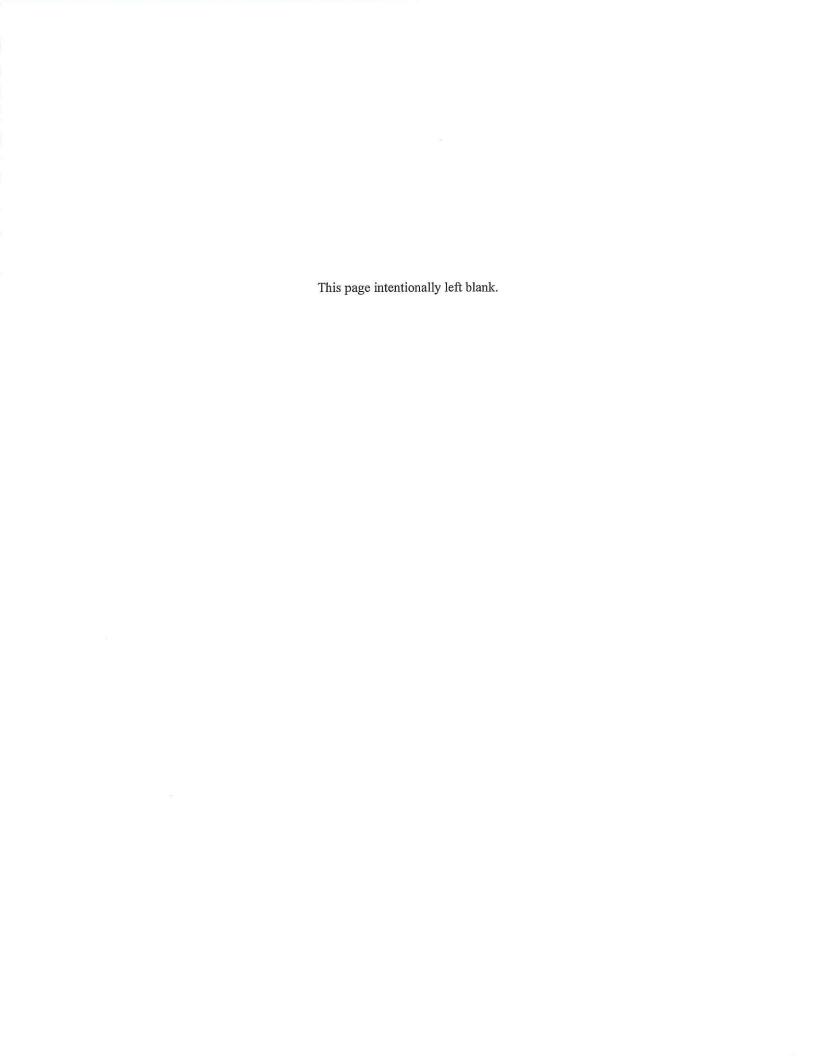

Town as Lessee

The Town, as lessee, has no significant lease agreements that are required to be reported under the new standard.

Town as Lessor

The Town, as a lessor, has entered into a lease agreement involving land that is to be used to house a cell tower. The total amount of inflows of resources, including lease revenue and interest recognized during the fiscal year was \$26,564. A schedule of future payments that are included in the measurement of the lease receivable, with imputed interest based on the Town's estimated current borrowing rate of 7.5%, is as follows:

F/Y/E			LEASES					
JUNE 30	PRIN		IN	TEREST	TOTAL			
2025	\$	3,354	\$	22,935	\$	26,289

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of Town Council Town of Brooks, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States the financial statements of the governmental activities, the business-type activities and each major fund of Town of Brooks, Georgia, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Town of Brooks's basic financial statements and have issued our report thereon dated January 30, 2025.

#### Internal Control over Financial Reporting

In planning and performing our audit, we considered Town of Brooks, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Brooks's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Brooks, Georgia's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described as item 2011.001 in the accompanying schedule of findings and responses to be a material weakness.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether Town of Brooks, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

#### Town of Brooks, Georgia's Response to Findings

Town of Brooks's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. Town of Brooks's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Janes J. Whitaker, F. C.

Snellville, Georgia January 30, 2025

## TOWN OF BROOKS, GEORGIA SCHEDULE OF FINDINGS AND RESPONSES FOR THE YEAR ENDED JUNE 30, 2024

#### REPORTABLE CONDITIONS

QUESTIONED COST

N/A

#### 2011.001 ORGANIZATIONAL STRUCTURE - REPEAT FINDING

Condition: The size of the Town's accounting and administrative staff precludes

certain internal controls that would be preferred if the office staff

were large enough to provide optimum segregation of duties.

Criteria: Personnel with responsibilities over cash receipts and disbursements

should not have responsibilities over entries into the Town's

general ledger or utility billing system.

Effect: The lack of control could result in an error or fraud going

undetected by employees performing their duties

in the normal course of business.

Cause: The size of the Town's accounting and administrative staff precludes

certain internal controls.

Recommendation: The Mayor and Council should remain involved in the financial

affairs of the Town to provide oversight and independent review

functions.

View of responsible officials and planned corrective action:

Management agrees with the finding. The Governing Body and Management will continue to provide oversight and independent

review functions over the Town's financial transactions.

## INDEPENDENT AUDITOR'S REPORT ON SPECIAL 1 PERCENT SALES AND USE TAX

Honorable Mayor and Members of Town Council Town of Brooks, Georgia

We have audited the accompanying Schedules of Special Purpose Local Option Sales Tax for the Town of Brooks, Georgia for the year ended June 30, 2024. These schedules are the responsibility of the Town of Brooks's management. Our responsibility is to express an opinion on the Schedules of Special Purpose Local Option Sales Tax based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule of Special Purpose Local Option Sales Tax is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Schedules of Special Purpose Local Option Sales Tax. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Schedules of Special Purpose Local Option Sales Tax. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Schedules of Special Purpose Local Option Sales Tax are prepared for the purpose of complying with the Official Code of Georgia Annotated, 48-8-121 on the modified accrual basis of accounting and are not intended to be a complete presentation of Town of Brooks's revenues and expenditures.

In our opinion, the Schedules of Special Purpose Local Option Sales Tax referred to above presents fairly, in all material respects, the original estimated cost, and the current and prior year expenditures for each project in Town of Brooks's resolutions or ordinances calling for the tax for the year ended June 30, 2024, in conformity with accounting principles generally accepted in the United States of America.

### TOWN OF BROOKS

P.O. BOX 96 961 HIGHWAY 85 CONNECTOR BROOKS, GEORGIA 30205 Daniel C. Langford, Jr., Mayor Scott Israel, Mayor Pro Tem Ted Britt, Councilman Kay Brumbelow, Councilwoman Brian Davis, Councilman Todd A. Speer, Councilman

Department of Audits
Medicaid and Local Government Audit Division
270 Washington Street, SW
Room 1-156
Atlanta, Georgia 30334-8400

The following is management's response to the findings noted in the auditor's report for the year ended June 30, 2024, dated January 30, 2025, for the Town of Brooks, Georgia.

#### FINDING:

#### ORGANIZATIONAL STRUCTURE, REPEAT FINDING

The size of the Town's accounting and administrative staff precludes certain internal controls that would be preferred if the office staff were large enough to provide optimum segregation of duties.

#### **CORRECTIVE ACTION PLAN:**

Management agrees with the finding. The Governing Body and Management will continue to provide oversight and independent review functions over the Town's financial transactions. The Mayor will continue to be responsible for delegating various tasks to the Town's Council, such as reviewing financial statements at the monthly meetings, assigning various council members with the responsibility of signing checks, and assigning a council member to review the bank reconciliations and the bank statements.

Should you have any additional questions or comments please contact me at your earliest convenience.

Sincerely,

Maurice Ungaro, Town Manager

arewn of Brooks, Georgia
